Environmental issues are as complex as they are diverse. Bayview Industrial recognizes the needs of our clients. We offer the safest and most effective solutions to their environmental challenges, while ensuring compliance to current regulations. Providing this level of service allows our customers to always maintain efficient operations.

Shane Pickett, Division Manager
Bayview Industrial

PROJECT SUMMARY

Bayview was brought into this project to assist Lehigh Hansen with the removal of approximately 130K of HFO from Main and double bottom tanks on board the Golden Arrow. The defuel operations were part of a reclassification of the vessel. HFO was pre-heated with temporary boiler systems and transferred ship to shore under the Bayview over water transfer notification system. The fuel was then shipped off site to a pre-determined reclamation facility. The project was completed in the projected time line and on budget.

PROJECT SUMMARY

Bayview Services, Inc. Subdivision Bayview Industrials Services, Inc. Has been the prime contractor on the USCG Polar Star Ship Life Extension Program (S.L.E.P.) since the indoctrination of the program in 2020. Service aboard the vessel include High pressure wash of fuel, oil and supporting systems. Pipe jetting for plumbing retrofit operations. Spot and mass lead abatement for weld and inspection surveys and sanitization services in compliance with various phased of the MIDD and USCG COVID-19 program. These and more services compliment the drydock capabilities of Mare Island which is an international ship repair and re-fit station critical to the USCG, US Navy and State operated ships.

PROJECT SUMMARY

This large project for the United States Navy required a large crew to accommodate an aggressive schedule. Multiple confined space and hazardous materials teams worked staggered shifts to prepare tanks and spaces within the ship for maintenance and repair. In addition crews worked daily to disinfect common surfaces and high touch areas to prevent the spread of Covid-19 on the project.

Wayne Pelletier

Hazardous Material Services Division Director

BIO

Wayne joined Bayview in 2007 to assist in the expansion of the environmental service lines and to augment the growing infrastructure with previous project and work experiences. Wayne is a graduate of Quinnipiac University of Hamden, Connecticut, with a degree in Marketing and Business Development.

Wayne started his environmental service career in New York before relocating to the West Coast and working in California since 1996. Prior to Bayview, Wayne worked with firms as a Project Manager, Estimator, General Manager, and Division Head. His background in hazardous materials remediation, trauma scene management, industrial cleaning, and emergency response services has assisted Bayview in the growth of environmental service lines and its client base expansion.

Wayne holds numerous training endorsements including Train the Trainer for HAZWOPER and many other sub categories related to the Environmental Service Industry.

BAYVIEW DIVISIONS

"Over the past year I have had the privilege of working with superintendent Jaime Cerna and foreman Jose Chavarria on a number of projects and I would like to thank them for their exceptional customer service skills as well as their timely completion of all environmental related tasks, as this was critical in getting every vessel in an out of dock in a timely manner."

Richard Palmer | Ship Superintendent
Mare Island Dry Dock

"Thanks a bunch Wayne, your crew did a great job even though the trying circumstances up there made the operation difficult. Great job, thanks again."

Bret Kyle/Ca Branch Operations Manager
Veolia North America

"I would like to send my sincere thank you to everyone of your workers for their professionalism and for working safe while at Calpine Agnews. I'm looking forward to having you guys coming back for any future work at our site or other Calpine sites."

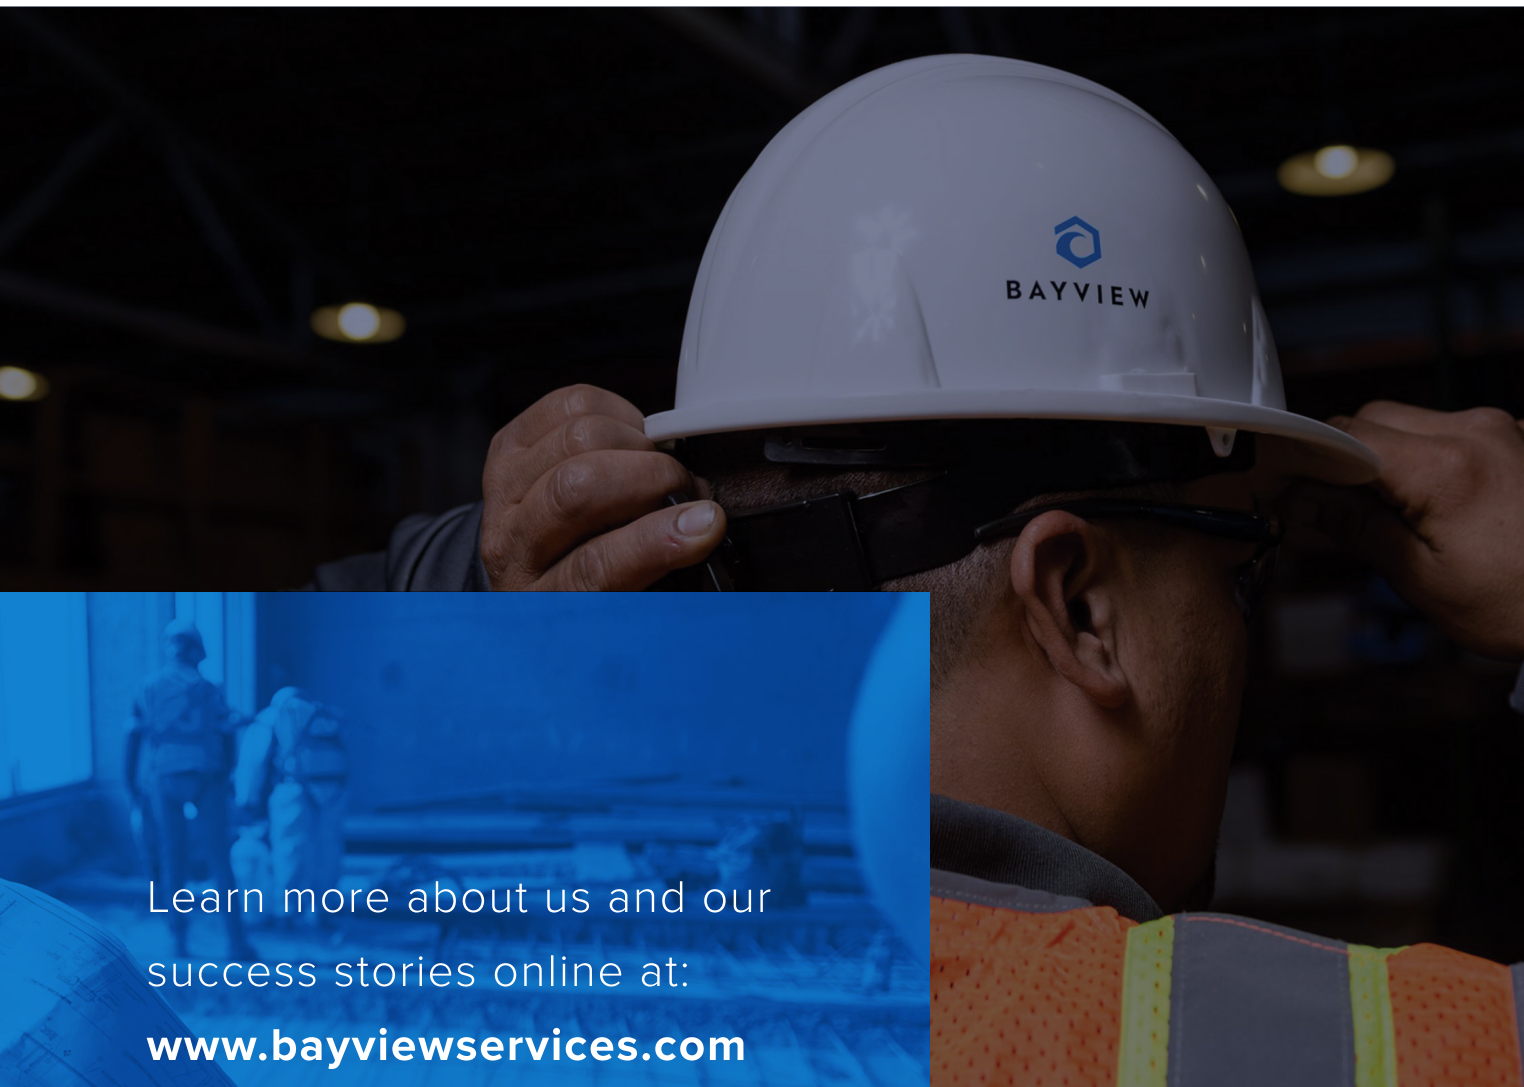

Ted Nguyen
Calpine- Agnews Power Plant

On behalf of US Ecology we would like to express our gratitude for the support you have provided us during the Beta Oil Spill in Southern California. On events of this scale and magnitude it takes a joint effort by multiple companies to make a successful response, and once again we would like to thank you for all of your support.

Amy Janak
