Industrial

**MESSAGE**

Founded over 25 years ago, Bayview Services Inc., prides itself on providing turnkey services to our Trade Partners in Environmental Remediation, Specialty Demolition, and most recently Industrial Services. While Bayview is new to Southern California, we have built a lasting partnership with McCarthy over the last several years in Northern California and seek to expand that partnership with your team in the Southern California area.

Please consider Bayview when bidding your next Southern California Project. If any pre-qualification information is needed to add us to your bidder's list, please contact me directly.

**I believe that Bayview is the most capable and reliable contractor in the industry. We are able to handle the wide array of environmental challenges that occur during construction and demolition projects. Our unique ability to remediate whatever comes up sets us apart.**

Peter Warren, Director of Operations  
Bayview Environmental

**PROJECT SUMMARY**

This tenant-improvement demolition project included the removal and disposal of interior walls of an existing concrete tilt-up and panelized roof structure building, as well as that of ceiling, flooring, light fixtures, and overhead mechanical, electrical, and plumbing throughout the structure. We also performed selective sawcutting, slab breaking, and excavating for removal of underground utilities and new footings.

**INDUSTRY**

- Commercial
- ↳ Office Buildings & Tenant Interiors

**DIVISIONS**

**Building-335**

📍 Foster City, CA

Tenant-improvement demolition project of an existing concrete tilt-up and panelized roof structure building.

**CLIENT/OWNER**

Gilead Sciences, Inc.

**GENERAL CONTRACTOR**

McCarthy Construction

**DURATION**

2 Months

**COMPLETION DATE**

September 2019

**CONTRACT VALUE**

\$497,900

**PROJECT SIZE**

25,000 Sqft

**CREW SIZE**

30 workers

\* Project Code: 19665

#### PROJECT SUMMARY

The selective interior soft demolition at this occupied hospital building included non-structural ceiling systems, partition walls, and floor finishes. The hazardous material abatement included asbestos and lead-containing materials, mercury-containing fluorescent light tubes, and PCB-containing lighting ballasts throughout the structure's eight stories.

### Parnassus Medical Facility

📍 San Francisco, CA

Soft demolition and hazardous material abatement in 8 floors of this occupied hospital building.

#### CLIENT/OWNER

University of San Francisco

#### GENERAL CONTRACTOR

McCarthy Construction

#### DURATION

19 Months

#### COMPLETION DATE

June 2015

#### CONTRACT VALUE

\$2,942,000

#### PROJECT SIZE

250,000 Sqft

#### CREW SIZE

25 workers

\* Project Code: 13297

#### PROJECT SUMMARY

- > This project consisted of multiple floors and multiple locations of soft and hard demolition. Bayview removed and disposed of selective plaster walls to accommodate new glass storefronts and a portion of the roof slab was removed and we left the rebar for others to install a new steel canopy. Also Bayview performed saw cutting and chipped out a concrete slab at four levels to accommodate new escalator. The first floor was complex because this was an 18" thick pour concrete that had multiples active piping running through. At this location Bayview needed to saw cut the perimeter of the slab and chip concrete around existing rebar and active electrical conduits for other trades to do their electrical safe off. After the safe off was complete, Bayview installed a crash deck on floor below to catch all falling concrete from the slab above.

### Stevens Creek

📍 2855 Stevens Creek Blvd, San Jose, Ca.

Soft and hard demolition at multiple locations.

#### CLIENT/OWNER

Westfield Mall

#### GENERAL CONTRACTOR

**Thank you guys for getting a crew ready to go on such short notice. Demo went smoothly!! Also, I can't speak enough about Miguel the foreman, he thought of everything from setting up plastic around the mock-ups to bringing a mop to wipe the floor down when done. The crew was incredible and super hard-working, these guys meant business.**

Jose Vega | Project Manager  
Whiting-Turner

**"Bayview Demolition continues to exceed Level 10 Construction's expectations while performing interior demo across 220,000 sq. ft. The first phase of demo started in June 2019 and BDS has performed over 20,000 hours without a lost-time injury. The work is taking place in an occupied building and debris is off hauled along Market Street in one of San Francisco's busiest tourist destinations."**

---

Jeremy McGee | Senior Superintendent  
Level 10 Construction
