Environmental issues are as complex as they are diverse. Bayview Industrial recognizes the needs of our clients. We offer the safest and most effective solutions to their environmental challenges, while ensuring compliance to current regulations. Providing this level of service allows our customers to always maintain efficient operations.

Shane Pickett, Division Manager
Bayview Industrial

**PROJECT SUMMARY**

Bayview Environmental took this project on following an unsuccessful operation by a previous contractor. The scope included the heating and pumping of approximately 130,000 gallons of fuel oil material from primary tanks in the ships keel 100 feet vertically, and then 300 feet horizontally to holding tanks for processing and recycling.

PROJECT SUMMARY

Bayview Industrial Services, Inc. (BIS) continues to expand Ship Services throughout Northern and Southern California. In support of the United States Coast Guard in association with Mare Island Dry Dock (MIDD) one of the latest projects aboard the USCG Stratton has provided an opportunity to manage several aspects of our service lines. Providing confined space entry operations to perform high pressure tank cleaning, surface decontamination, bulk liquid maintenance and site control measures during this project scheduled for the next three months. This project utilizes several of the BIS training and operational procedures to complete the contracted scope.

PROJECT SUMMARY

Bayview responded to an emergency response request from its customer to assist in a coordinated clean-up effort related to the oil spill incident off the coast of Huntington Beach. A Unified Incident Management Team that included the US Coast Guard, California Department of Fish and Wildlife, and Amplify Energy Corporation directed the clean-up efforts. Immediate closure to Huntington Beach was necessary to limit public access to oil-impacted areas, due to the toxicity of the oil and ongoing cleanup efforts.

Our project consisted of Bayview immediately deploying 4 Foreman, 36 Technicians and 4 crew Vehicles around the clock for 8 working days to implement oil containment efforts. The work continued through the re-opening of the Public Beach ahead of the projected schedule.

The Unified Command announced that approximately 5,544 gallons of oil has been recovered from the water and 12,160 feet of boom had been deployed. Huntington Beach was re-opened to the Public on October 8, 2021.

Shane Pickett

Division Manager (Industrial)

BIO

With over 20 years of experience in all aspects of the construction industry, Shane has, since 2011, worked solely in the environmental industry. Shane's career focus is on environmental remediation, hazardous materials mitigation, waste management, and disposal. He has completed multiple large scale, and highly hazardous, facility closures throughout the metal plating, semiconductor, and chemical manufacturing industries.

Before joining Bayview in 2017, Shane last served as Northern California District Operation Manager for a Fortune 200 company. He brings invaluable expertise in the areas of environmental regulations, operations, project management, environmental health and safety, transportation, and logistics. Shane has a bachelor's degree in Environmental Biology from Northern Arizona University.

BAYVIEW DIVISIONS

Wayne Pelletier

Hazardous Material Services Division Director

BIO

Wayne joined Bayview in 2007 to assist in the expansion of the environmental service lines and to augment the growing infrastructure with previous project and work experiences. Wayne is a graduate of Quinnipiac University of Hamden, Connecticut, with a degree in Marketing and Business Development.

Wayne started his environmental service career in New York before relocating to the West Coast and working in California since 1996. Prior to Bayview, Wayne worked with firms as a Project Manager, Estimator, General Manager, and Division Head. His background in hazardous materials remediation, trauma scene management, industrial cleaning, and emergency response services has assisted Bayview in the growth of environmental service lines and its client base expansion.

Wayne holds numerous training endorsements including Train the Trainer for HAZWOPER and many other sub categories related to the Environmental Service Industry.

BAYVIEW DIVISIONS

"I Just wanted to say thank you for the good work done by Bayview for the job at Hunters Point Shipyard. the plans (clean-up, Fall Protection and associated AHAs) were done well and in a timely manner. The crew you supplied was professional, on-time and hard working. Thanks again for a job well done, I look forward to the next opportunity."

Mark Vennemeyer
Cb&I/McDermott

"Over the past year I have had the privilege of working with superintendent Jaime Cerna and foreman Jose Chavarria on a number of projects and I would like to thank them for their exceptional customer service skills as well as their timely completion of all environmental related tasks, as this was critical in getting every vessel in an out of dock in a timely manner."

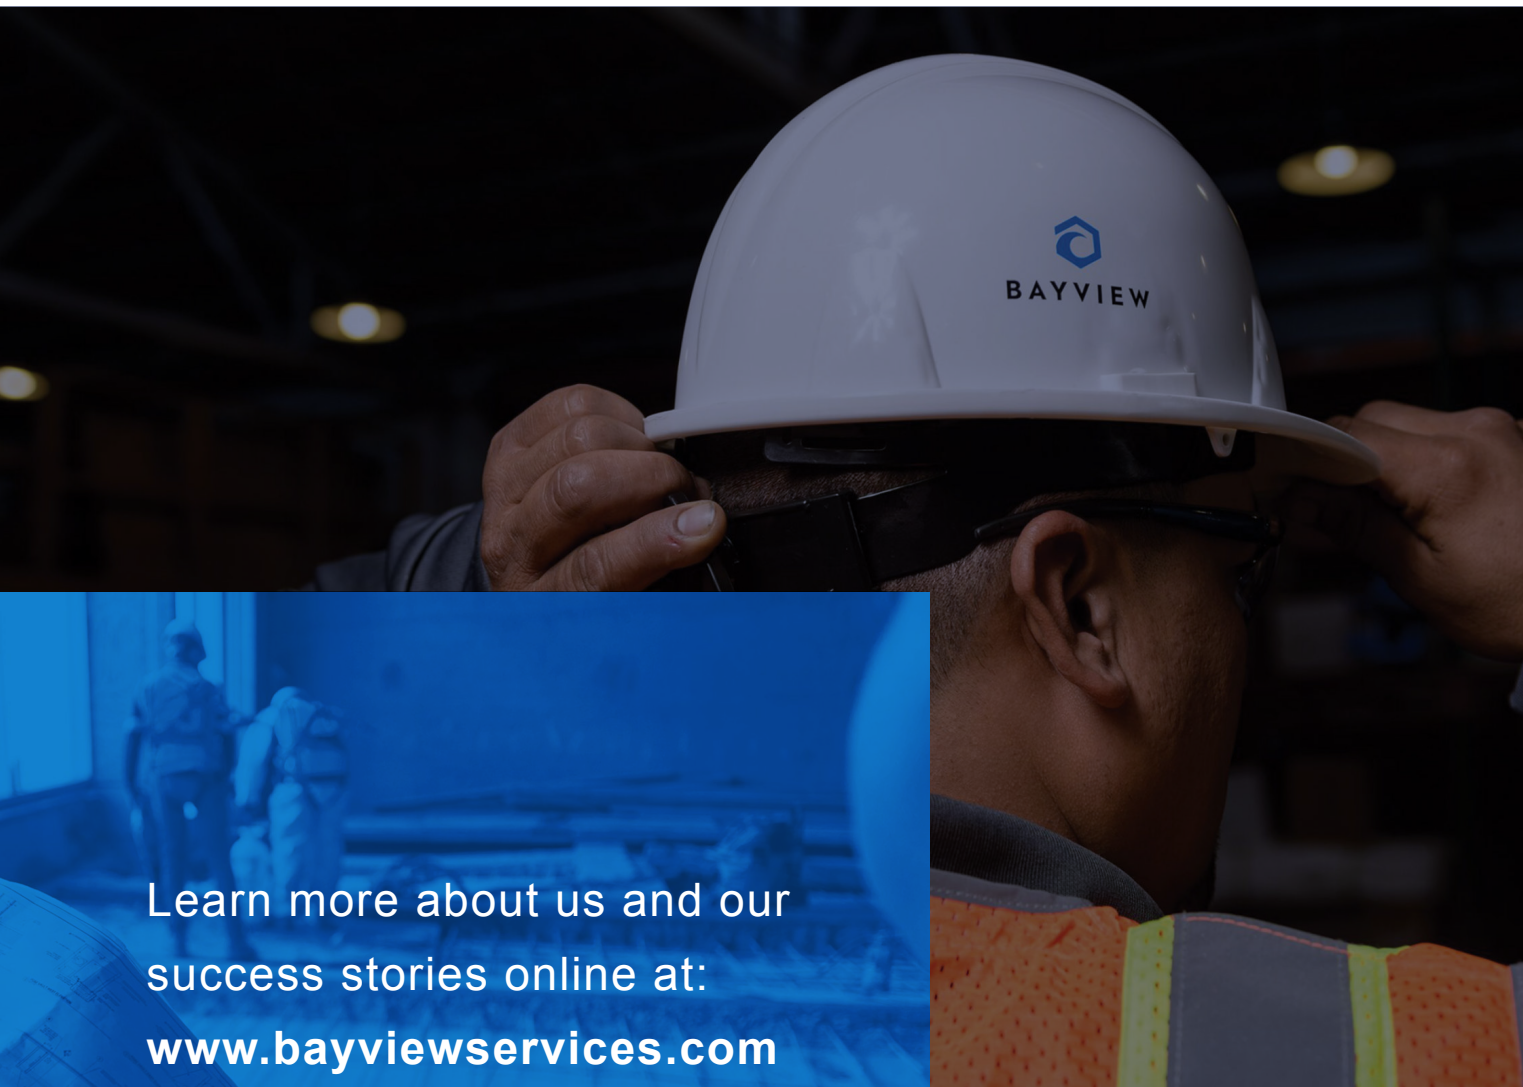

Richard Palmer | Ship Superintendent
Mare Island Dry Dock

On behalf of US Ecology we would like to express our gratitude for the support you have provided us during the Beta Oil Spill in Southern California. On events of this scale and magnitude it takes a joint effort by multiple companies to make a successful response, and once again we would like to thank you for all of your support.

Amy Janak
