MESSAGE

Founded over 25 years ago, Bayview Services Inc., prides itself on providing turnkey services to our Trade Partners in Environmental Remediation, Specialty Demolition, and most recently Industrial Services. While Bayview is new to Southern California, we have built a lasting partnership with Whiting-Turner over the last several years in Northern California and seek to expand that partnership with your team in the Southern California area.

Please consider Bayview when bidding your next Southern California Project. If any pre-qualification information is needed to add us to your bidder's list, please contact me directly.

PROJECT SIZE

85,000 Sqft

* Project Code: 19710

PROJECT SUMMARY

This project at a six-story office tower and three-story parking garage was performed in multiple phases. The scope of work included the soft demo of all interior finishes, walls, ceilings, and flooring. The phase was followed by the complete removal of all HVAC mechanical equipment including chillers, heating units, cooling tower, duct work, fans, and blowers. All electrical and plumbing systems were completely removed. There also was a hard demo package that included wall openings in concrete, new shaft openings, and the removal of concrete walkways and concrete curbs within the parking structure. The final phase of the project involved a complete scaffold system being installed around the exterior of the building and all exterior siding, including all glass windows being removed from the structure.

PROJECT SUMMARY

This was a multifaceted remediation project that included laboratory decontamination, hazardous material abatement of Asbestos, Lead and PCBs as well as soft demolition. Bayview Environmental Services ultimately cleared both buildings of all impacted materials to prepare it for complete demolition by Ferma Corp.

The remediation scope included the precleaning and decontamination of all lab space, counter tops, fume hoods and ventilation systems, the removal of asbestos containing fireproofing, drywall and joint compound, flooring, and associated mastics as well as the removal of PCB impacted ballasts, caulking and other impacted substrates. This was a unique project that was completed under the challenging and ever evolving COVID -19 social distancing requirements and protocols.

Marvin J. Henderson

President

BIO

As one of the founding members of Bayview, Marvin has over 40 years of experience in the demolition and abatement industry. He started his construction experience as a union carpenter installing specialty asbestos products. Prior to the formation of Bayview, Marvin was one of the Chief Estimators and Vice President of a publicly traded environmental company.

Marvin's initial position in Bayview was to form and develop the sales and estimating team. Now as President of Bayview, he continues to guide the company to be one of the leading demolition, insulation, and hazardous material abatement contractors in California.

CERTIFICATIONS/TRAINING

- > Qualifying individual for the California State Contractors license for Bayview Demolition Services, Inc. License #764068

Safety = success. The cleaner and safer the job site, meaning our people are on task and organized, the fewer injuries we experience. It's that simple. And the project comes out more successfully: on time, on budget. This all makes the clients happier.

Bayview Team,

I wanted to take a minute to recognize your onsite foreman, Jaime Nuno. Jaime was on top of all paperwork, maintained a clean & safe jobsite, and was very organized. Not only does this make my life easier as a superintendent, but Stanford, the client, was impressed as well...

Andrew Nett | Senior Field Engineer
Whiting-Turner

Thank you guys for getting a crew ready to go on such short notice. Demo went smoothly!! Also, I can't speak enough about Miguel the foreman, he thought of everything from setting up plastic around the mock-ups to bringing a mop to wipe the floor down when done. The crew was incredible and super hard-working, these guys meant business.
